Sustainable traffic hoarding with a wooden veneer

City-Wood 1m is a complete traffic hoarding fence with naturel sustainable appearance

City-Wood M850 1-metre high fences consists of a robust Douglas wooden panel. The robust wooden planks provide optimum strength in combination with the sturdy steel frame of the City Fence. Ideal for traffic management, separation, and safety. They do not protrude into the road, but they obscure motorists' view into the construction site. The natural look of the material also provides a calm and pleasant environment for neighbours and passers-by. It is also a sustainable solution and fits your SROI goals.

- Neat and natural look
- Durable mobile fence with social impact
- Ideal traffic fence

A durable 1m mobile fence for inner-city areas

The wooden panel is made by people reintegrating into the labour market, providing the answer to SROI issues. Part of the rent or sale price of this fence can be used as an SROI offset in various municipalities. Denting or damaging the wooden panel is extremely difficult. In addition, panels can be replaced with very little effort. In addition a 2-metre high variant is also available.
