## An affordable temporary fence that is strong in simplicity

### Buy affordable temporary fencing for every situation

Looking for affordable and simple temporary fencing? The Heras mobile fence M300 is the solution for those looking for a functional construction site fence. This lightweight fence is ideal for less risky sites. The wider mesh size (100 mm) makes it easier to place a foot in the mesh and climb over the fence. At the same time, the wider mesh makes the temporary fence competitively priced.

- Attractively priced
- Lightweight and easy to handle
- Quick to assemble by one person

### A user-friendly mobile fence

Heras Mobile's temporary fences are safe to use. The mesh of this fence is pre-galvanised and contains no sharp zinc residue. The result? This temporary fence is safe for the hands during assembly. Do you want to install the fence on your own? Then we recommend the Heras Fence Lifting Tool. Thanks to this tool, you can lift a mobile fence ergonomically without straining your body.

### Extra options for your temporary fencing

We can provide our temporary fences with a personalised sign, which is visible on both sides of the fence line. In that way, you can promote your company. Do you want extra strength? The M300 mobile fence is also available with welded corners for a longer service life. We also have variants with hook or hook-and-eye system for faster assembly. In short: the Heras M300 mobile fence can be adapted to your needs. Would you like to buy this temporary fence? Get in touch with us.
