Lightest plastic fence footing – quick and easy to install

Lightweight recycled footing for efficient transport

This 14 kg recycled plastic block is the lightest in the range. It can be easily lifted and placed by a single person. Multiple units can be loaded per transport, making it ideal for projects where speed and efficiency are key.

- Lightweight: only 14 kg
- Complies with EU lifting standards
- Made from recycled plastic

Smart transport, fast installation

Thanks to its compact size and low weight, you save on both transport and labour costs. Still, this fence footing provides a stable base for temporary fencing on construction sites, event grounds or restricted areas. Light yet durable, a smart choice for any temporary setup.
