## Compact post for safe and visible demarcation

### Safe and visible marking at any location

This Isolfiche® post combines maximum safety with ease of use. The post is ideal for quickly and safely marking areas or construction sites. The patented insulated shaft prevents electrical current from passing through the post. The forged striking point ensures smooth and secure installation into various types of terrain.

- Length: 1.30 m, Ø14 mm
- Electrical insulation up to 20,000 volts
- Anti-puncture system to prevent injury

### Reliable and user-friendly

Thanks to its light weight and durable steel, this post is easy to handle, reusable, and resistant to various conditions. The handy hook allows you to easily attach ribbons, mesh nets, or lamps to it. This makes the Isolfiche® post suitable for construction sites and other areas where visibility and safety are important. We also offer posts in other sizes. Please feel free to contact us for more information or tailored advice.
