Iron post with hook, perfect for lighting and visual marking

Versatile solution for temporary lighting

This Ø14 mm iron post is specially designed for quick and efficient installation of temporary lighting or marking. With its practical U-shaped hooks, it allows you to attach barrier tape, mesh netting, or lights in seconds. The post has a smooth finish, is robust, and can be easily driven into the ground, helping you create a clearly marked and secure area in no time.

- Fitted with hooks for tape, mesh, or lighting
- Quick and effortless to place
- Durable and reusable for temporary demarcation

Practical and reliable for temporary setups

The lantern holder post is ideal for construction sites, events, or any environment where temporary lighting and visibility are essential. Lightweight yet sturdy, it's built to perform reliably under varying conditions. This post offers a flexible and professional-looking solution that enhances both safety and visibility on site.
