Safe extractor tool for easy removal of Isolfiche® pins

Safe removal of Isolfiche® pins

The Isolpince® has been specially designed to safely extract Isolfiche® pins from the ground without the risk of electrocution. The tool is insulated up to 20,000 volts, making it ideal for environments where electrical safety is paramount. Thanks to its ergonomic and clever design, you can quickly and effortlessly remove pins, even from compacted soil.

- Insulated up to 20,000 volts
- Suitable for Ø14, Ø16 and Ø18 mm pins
- Designed for safe and efficient operation

A reliable addition to your Isolfiche system

Used in combination with Isolfiche® pins, the Isolpince® is an essential tool for construction sites, fields, and other locations where safety is non-negotiable. It is robust, reusable, and built for intensive use, providing a professional and secure way to manage temporary fencing and site demarcation.
