A friendly transport system for Heras temporary fencing, feet and fence clips

All-in-one transport solution for mobile fences, feet and couplers

The Combi-V Transport Rack is the ideal solution for neatly storing and transporting 30 temporary fences (types M300/M400/M450/M500), along with their corresponding feet and couplers, in one compact unit. The robust steel frame and well-thought-out design make this rack user-friendly and easy to deploy. It can be transported lengthwise or widthwise, offering flexibility on a variety of construction sites. When returning materials, the contents are easy to inventory.

- Capacity for 30 fences, feet and couplers
- Maximum load capacity: 1,750 kg
- Foldable and stackable for efficient storage

Practical, safe and space-saving

The Combi-V transport rack enables quick and effective deployment of fencing around construction areas. With all required materials stored together, it saves time on-site. Its foldable design reduces space requirements during storage, and the sturdy frame allows for safe stacking. A smart choice for rental fleets and contractors who value speed, safety, and organisation on location.
