Quick and secure access with a 6-metre electric sliding gate

Quick to install and ready to use

The 6-metre Arion sliding gate is designed for quick and efficient access to your construction site. Thanks to full assembly on delivery and the prefabricated concrete foundation, the gate can be installed and connected immediately. The robust construction and smooth guidance make this electric sliding gate reliable and easy to use.

- Robust gate wing with anti-climb steel mesh
- Electrically operated with powerful Cardin drive
- Includes infrared, flashing light and hand-held transmitter

Optimal connection to temporary fencing lines

This sliding gate connects seamlessly to your existing construction fence structure. With a clear passage of 6 metres, it is suitable for construction traffic and transport. Safety strips and photocells ensure that the gate stops at obstacles, so that vehicles and people are not at risk during use.
