## Emergency gate for fast and safe evacuation of your site

### Prepared for emergencies

This emergency gate with a 1.2-metre leaf is specially designed for the quick and safe evacuation of people in case of emergencies. Thanks to the integrated panic lock, the gate can always be opened from the inside using a handle or knob. The gate is supplied with a strike plate, ensuring that it cannot be opened from the outside. A smart solution for temporary locations where safety comes first.

- Fitted with panic lock with handle or knob operation
- Supplied with cylinder lock on one side
- Strike plate prevents access from outside

### Easy installation and additional options

This emergency gate is ready to use and easy to integrate into your fencing line. Its seamless connection ensures that no one can reach through the nearby fencing to unlock the gate. The gate leaf can swing open 180 degrees, allowing a wide opening and functioning as an ideal emergency exit. The base plate version makes installation on paved surfaces quick and stable. Perfect for use on construction sites, temporary events or as an additional emergency exit on your premises. For more information about pedestrian and emergency gates, feel free to contact us.
