### Direct pedestrian access within your fencing line

#### Robust pedestrian gate with smart finish

This yellow Round Top pedestrian gate has been specially developed for construction sites and other locations where visibility is essential. The bright yellow colour ensures the gate is highly noticeable, clearly marking where people may safely enter the site. With its rounded top frame, integrated lock and smooth swing mechanism, this gate is both safe and user-friendly.

- Supplied with wheel, hinge and cylinder lock
- Delivered ready for installation
- Yellow finish for maximum visibility

#### Smart and safe solution for temporary access points

Thanks to its rounded design, the gate swings smoothly and saves space in use. Installation is simple: just add four fence clamps and the gate is ready to use. Like the standard version, this pedestrian gate is low-maintenance and hot-dip galvanised for a long service life.
